

Tomás Maritano

Lead Engineer

Buenos Aires tomymaritano@gmail.com www.linkedin.com/in/tomymaritano github.com/tomymaritano

SUMMARY

Software engineer and engineering lead. I build product systems across frontend, backend, and AI-assisted document generation. Currently Lead Engineer at Psynth. I joined as a design engineer. Based in Buenos Aires. Studied at Universidad Tecnológica Nacional.

EXPERIENCE

Psynth Lead Engineer Lead Engineer for a clinical reporting product. I joined as a design engineer. Test results and intake become a structured draft for psychologist review and signature.	2026 — Present
Unicoïn Engineer Product engineering on a cryptocurrency platform.	2024
Grandvalira Full-stack engineer Internal directory: Next.js, Express, Prisma, and JWT role-based access on every write.	2022
Wolt · Valere Realms · Su Web Express Engineering Frontend first, then the systems underneath. Copenhagen, Andorra, and Buenos Aires.	2017 — 2024

SELECTED PRODUCTS

DevWifiBar Author Native macOS menu bar that attributes uplink load to named AI processes. No TLS inspection.	2026 — Present
Dripnex Founder Hackable AI note taker. SQLite on the machine; sync when those surfaces ship.	2026 — Present
DolarGaucho Founder Argentine FX quotes and a weekly macro briefing.	2025 — Present
Quantis-intel Founder Financial reporting system that turns structured inputs into a finished report.	2026
Cairn Author State-machine workflow engine for onboarding paths and event streams.	2026
Minipix Author Image compression SDK. One Rust core with npm, PyPI, and crates.io bindings; SHA-256 goldens in CI.	2026
Readied Author Offline-first Markdown editor. Notes remain plain files on the machine.	2026

SELECTED CLIENTS

Unicorn Hunters Product engineering for the investment show platform.	2024	Silvina Moschini Personal site and talk-led presence.	2024
BillSpace Consumer flow for cancelling Dutch household bills.	2025	Jetsetz Deal discovery interface.	2025
The Freedom People Lightning Network checkout.	2023	Isolla Furniture storefront, Next.js.	2023
G1M Localized e-commerce checkout.	2023	Private Limo Booking flow over WhatsApp.	2023

TECHNICAL SKILLS

Cloud AWS · GCP · Vercel · Kubernetes · Docker · Terraform · ArgoCD · CodeArtifact
Frontend TypeScript · JavaScript · React · Next.js · Svelte · HTMX · CSS · Tailwind · Three.js
Native Swift · React Native · Electron
Backend Python · Node.js · FastAPI · Hono · Express · tRPC · Go · Rust
Data PostgreSQL · SQLite · MongoDB · Redis · Prisma
Content Sanity · Cloudinary · MDX
AI Vertex AI · Bedrock · Anthropic · LLM orchestration · PyTorch · Reinforcement learning

EDUCATION

Universidad Tecnológica Nacional

Buenos Aires, Argentina
